

# OWL Kitchen Appliances Representation

Cooking Appliances:

Stove / Cooktop (Gas, Electric, or Induction)

Oven (Conventional, Convection, or Microwave)

Toaster

Blender

Food Processor

Air Fryer

Coffee Maker / Espresso Machine

Electric Kettle

Slow Cooker / Instant Pot

Rice Cooker

Griddle / Sandwich Maker

Create an owl file to represent these kitchen objects.

Here's an OWL (Web Ontology Language) file to represent the given kitchen appliances as an ontology. This OWL file defines a class hierarchy for kitchen appliances, categorizes them into different types, and establishes object properties to represent relationships between them.

I've created an OWL file representing the kitchen appliances with class hierarchies and instances. Let me know if you need modifications or additional properties!
